SUMMARY

Associate QA Tester with over 1 year of experience in manual testing, including sanity, regression, and functional testing. Proficient in writing, executing, and validating test cases, ensuring product stability and reliability across various test cycles.

Hands-on experience in API testing and familiarity with CI/CD pipelines for continuous integration and delivery. Also possesses knowledge in content authoring tasks, such as content updates, page validation, and layout checks. Known for a keen eye for detail, effective communication, and collaborative problem-solving.

EXPERIENCE

Associate Quality Assurance

Vertis Digital, Chennai   **March 2024 - Present, Chennai**

- Performed backend validation of components to ensure data integrity and functional accuracy, focusing on logic built with Sling Models and OSGi services.
- Validated structured content delivery through Content Fragment Models, including API response checks and model-field configuration verification.
- Conducted logic and integration testing for enhanced components like OTTP, emphasizing performance, content flow, and authoring consistency.
- Supported content management tasks such as page creation, component setup, and structured content configuration using a visual authoring interface.
- Executed end-to-end testing, including test case design, regression cycles, and UAT, ensuring high-quality feature releases.

PROJECT

Marinabaysands Corporate Site and ArtScience Museum

MBS (Marinabaysands)   **June 2024 - Present**

- Worked as a QA and content author, involved in creating and validating detailed test cases for newly developed and enhanced components.
- Conducted **UI functionality testing**, ensuring alignment with **Figma design specifications** and expected behaviour across devices.
- Performed **API testing** for the ticket booking workflow, verifying request/response data, error handling, and overall flow integrity.
- Executing test cases during build deployments and ensuring stable, defect-free releases.

- Executed **cross-browser, responsive, sanity, and regression testing** to maintain consistent functionality and performance across environments.
- Collaborated closely with developers to **log bugs, track resolutions**, and validate fixes as part of the sprint QA process.

SingHealth Cares for You with a Full Range of Medical Services
SingHealth   **March 2024 - May 2024**

- Contributed as both a **QA Tester** and **Content Author**, supporting structured content delivery and quality assurance throughout the release cycle.
- **Created and configured pages, components, and digital assets**, ensuring accurate content structure and alignment with the design specifications.
- Executed **manual test cases** to validate component functionality, content workflows, and user interactions across different modules.
- Verified **customized components** for performance, responsiveness, and adherence to content authoring standards.
- Conducted **cross-browser and multi-device testing**, ensuring consistent performance across desktop, tablet, and mobile platforms.
- Collaborated with developers to **report issues, validate bug fixes**, and support timely, stable deployments.

EDUCATION

BCA (Computer Application)   **2018 - 2021**
Jamal Mohamed College Autonomous, India

MCA (Computer Application)   **2021 - 2023**
Bharathidasan University, India

SKILLS

Testing Skills
- Manual Testing (Sanity, Regression, Functional)
- Test Case Design & Execution
- UI/UX Validation (Figma-based)
- API Testing
- Cross-Browser & Responsive Testing
- Integration & End-to-End Testing
- Defect Logging & Tracking (JIRA, Confluence)
- Playwright
- JavaScript, Python

Tools & Technologies
- CI/CD Pipeline Understanding
- API Testing Tools (Postman)
- Bug Tracking Tools (JIRA)
- Version Control (Git)

Content Authoring
- Page Creation & Component Configuration
- Digital Asset Management
- Content Fragment Setup & Validation
- Layout & Design Verification

AI Tools
- ChatGPT
- Grammarly
- Testim.io
- GitHub Copilot

Soft Skills
- Detail-Oriented and Quality-Focused
- Strong Communication & Collaboration
- Agile/Scrum Team Experience
- Fast Learner and Adaptive to New Tools
